TO WHOMSOEVER IT MAY CONCERN

Ours is a Paper Industry having capacity of manufacturing kraft paper upto 200 M.T. per day at Aghwanpur, Distt. Moradabad (U.P.). We have been facing lot of problems in respect to waste water treatment, solid waste utilization and recycling of treated water. We appointed M/s ABM Environment Consultants, Ghaziabad (U.P.) for modernization and up-gradation of our Effluent Treatment Plant. Mr. N.K. Gupta of M/s ABM Environment Consultants, Ghaziabad, visited our factory and advised regarding control of waste water treatment and reuse upto zero discharge level. We accepted the suggestions given by Mr. N.K. Gupta and feel pleasure to quote that the measures suggested by them has enabled us to achieve zero discharge level after recycling the treated waste water upto the acceptance of CPCB / UPPCB. The work done by them in our factory for the Effluent Treatment Plant etc. has been praised by our management as well as by the Pollution Control Board authorities at Delhi / Lucknow.

We wish them success in the future.

For Genus Paper Products Limited

(S. P. Sinha)

Vice President (H.R.)
